

Discover the Medical Second Opinion Program.

GreenShield Medical Second Opinion helps fill the gap in healthcare that many Canadians are currently experiencing.

Medical expertise and support when you need a second opinion.

Our medical team work with physicians across Canada, selecting a qualified specialist to review and analyze each case. With every Medical Second Opinion case, we ensure continuous and compassionate support throughout the entire process.

What the process includes:

- A Case Manager is the primary point of contact throughout the process
- The Case Manager will coordinate with the member's treating physician to collect their medical records and provide them to the selected specialist
- The specialist will conduct a detailed review and prepare a personalized report that is sent to the member and their treating physician
- After the report has been provided to the member, a Case Manager will support the member to ensure all questions are answered and the results are understood

™/® Trademarks of Green Shield Canada. © 2026
